**2012 triumph bonneville**

VIN: ...

Please be aware of a VIN scam. Someone responds to your post. They say they are interested in buying your motorcycle. They ask you to send them a VIN report.

The key part of this scam is they request you visit a "specific link" where these crooks can collect your valuable credit card info. They say they are going to reimburse you. No, I didn't fall for this scam. Again, beware!!!
